

PRESS RELEASE

dated 2 April 2010 Sydney, Australia

ICSGgroup is pleased to announce that it has become a member of the Green Building Council of Australia.

The GBCA has a large membership who work together to support the Council and its activities. Their membership base is drawn from a diverse cross-section of developers, local, state and federal governments, owners, professional services firms, investors, manufacturers, suppliers and distributors, facility and asset managers, universities, professional societies, utilities and contractors.

The GBCA promotes green building programs, technologies, design practices and processes, and operates Australia's only national voluntary comprehensive environmental rating system for buildings - Green Star.

About the Green Building Council of Australia Launched in 2002, the GBCA is a national, not-for-profit organisation that is committed to developing a sustainable property industry for Australia by encouraging the adoption of green building practices. It is uniquely supported by both industry and governments across the country.

Mission The Green Building Council's mission is to develop a sustainable property industry for Australia and drive the adoption of green building practices through market-based solutions.

Objectives Its key objectives are to drive the transition of the Australian property industry towards sustainability by promoting green building programs, technologies, design practices and operations as well as the integration of green building initiatives into mainstream design, construction and operation of buildings.

Hi-Tek's commitment to Green Star will gain:

- **Accreditation:** gain formal certification for the environmental design achievements of our building projects.
- **Competitive advantage:** secure a head start on its competitors by demonstrating its green credentials to clients and partners.
- **Networking:** access the industry's green building leaders through GBCA's board, and connect with other green building advocates and practitioners at GMCA sustainability events such as Meet the Stars, Greens on the Green, Member Evenings, boardroom lunches and dinners, Green Star tool launches and forums.

- **Advocacy:** support Hi-Tek's representation where possible, with state and federal governments, policymakers, regulatory bodies and industry stakeholders to improve sector conditions on its clients' behalf.
- **Corporate citizenship:** provide a vehicle for Hi-Tek's organisation to promote its clients commitment to green building and environmental sustainability.
- **Sponsorship:** expose Hi-Tek's brand and products to a large audience of like-minded potential clients. Demonstrate and profile its green leadership with exclusive, member-only sponsorship of Green Star rating tools or Green Building Council events, courses and publications.
- **Courses:** educate its staff on the latest and greatest green building practices
- **Tools:** Gain access to practical Green Star tools and support the development of new tools to help the company's green building initiatives.
- **Intelligence:** access the latest green building news and research, cost benefit analyses and information about GBCA's Green Star program.

Mark Cohen, a Senior Executive of Hi-Tek said:

"We see these initiatives at Hi-Tek Projects as key to the Built environment and the segment that we are actively engaged in."
