

PRESS RELEASE

dated September, 2011 Sydney, Australia

ICSG Group is pleased to announce the recent award of the joinery works for the iconic Park Hyatt Sydney project, in conjunction with Built.

Built.

 HI-TEKprojects

The renovation programme will take place over a period of seven months and involves the closure of the hotel to allow for the extensive work to be completed. Park Hyatt is due to open its doors at the end of 2011.

The multimillion dollar project will involve the complete re-design of the hotels guest rooms, including architectural fixtures and fittings, new furniture and unique artwork by Australian artists.

Designed to celebrate the indoor – outdoor experience, all guest rooms will feature floor to ceiling glass doors that open onto spacious private balconies, that honour the hotels exclusive harbour front location.

Hi-Tek's involvement with such an iconic property is synonymous with its heritage of quality commercial joinery and installation, with a reputation for fine craftsmanship and uncompromising standards built with a number of flagship projects and blue chip clients." Said Marcell Pavlovec, Managing Principal of ICSG Group.
